

# DOGEFORK

---

A Doge meme with  
a big appetite

# Introduction

The DOGE community is active and growing every day. The popularity of DOGE is creating high demand for new meme tokens with unique spin-off concepts. Looking to serve the community and establish a low-risk launch, DOGEFORK was created to inspire creativity and goodwill. DOGEFORK plays on two ideas:

The first idea is the concept of forking a token project. DOGEFORK is simply that, a fork based on the successful DOGECOIN project. The success of DOGECOIN has created a world-wide grassroots community of next-generation cryptocurrency and blockchain token evangelists. Derived from this legacy is the idea that a decentralized community can come together to make a difference. It's time for the DOGE community to show the world we stand together with a purpose, a cause, and meaningful objective... and not just to launch another frivolous meme token that disenfranchises our success.

The second idea is the concept of an actual fork, or utensil, to feed those in need and help fight world hunger. Globally, nearly 10% of the world's population — approximately 800 million people — go to bed hungry or are malnourished. This statistic is in an upward trend even though there is enough food in world to feed every single person on the planet. DOGEFORK envisions our DOGE meme "fork" to be the token that raises global awareness and takes action against hunger.

# \$DOGEFORK Token

\$DOGEFORK is a Binance Smart Chain token that promotes DOGE and fights hunger through decentralized use. The max supply is 1,000,000,000,000,000 and has deflationary tokenomics. The contract has a 15% Buy/Sell Tax. 5% of every transaction is used to build the liquidity pool and, by extension, the value of your holdings. 4% of each transaction is directly reflected back to holder wallets. 1% is sent to a burn address to create a deflationary feature in the contract. 2% is sent to a charity wallet used to combat hunger. 3% is set to a marketing wallet to fuel our efforts to make this token mainstream. To create stability, no one wallet can hold greater than 5% of the token circulating supply. This is known as an Anti-Whale mechanism. Liquidity has been locked via Unicrypt for 6 months. This lock will be extended indefinitely as the project and mission take off.

**Supply: 1,000,000,000,000,000**

**Liquidity Boosting: 5%**

**Redistribution: 4%**

**Burn: 1%**

**Charity: 2%**

**Marketing: 3%**

# Roadmap

## Phase 1

- Initial Concept
- Website
- Whitepaper

## Phase 2

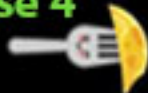

- Build Community
- Social Engagement
- Token Launch

## Phase 3

- Grow Community
- Create Iconic Multimedia

## Phase 4

- Achieve Worldwide Recognition
- Expand to CEXs

## Phase 5

- Feeding Millions of People!!

# Values

**Community** - DOGEFORK has no owner. As a fully decentralized project, our community members drive the success of the project. With open, transparent, and ongoing communication by our members, DOGEFORK will become a world-wide phenomenon.

**Purpose** - DOGEFORK has a purpose, unlike many other crypto meme tokens. Our purpose and mission is to fight world hunger. By using \$DOGEFORK, our community is supporting the effort to reduce hunger through ongoing donations to non-for-profit organizations around the world.

**Growth** - DOGEFORK is not intended to be a pump-and-dump meme token. Our objective is to grow the utilization of \$DOGEFORK in order to support our mission to fight world hunger. This requires ongoing community support and continued efforts by our members to be successful. Join us, grow with us, and do good with us!
